

Board of Selectmen
Minutes November 19, 2016

Convened at 7:30 am

Present: Ken Christiansen, Chair
Robert Mantegari
Jeffrey Bryan
David Menter

The board met at the water tower on Prescott Road to discuss the reconstruction of the roadway and culvert replacements. Several residents were present to express their concerns of the proposed widening of the roadway. The engineering plans were reviewed. The consensus of those present is that they would like to see the intersection at North Road reconfigured into a "T" instead of the current "Y", replace the culverts, and reclaim the road keeping the road bed in its current position with the current undulations.

The board and the residents then walked the length of Prescott Road from the water tower to the southerly culvert by the Fields' property.

Some items the residents would like more information on are the following:

- Options on culverts ie. Arch culverts
- Grade of driveways
- Rustic guardrails
- Right of way limits on the Field's property
- Stake and flag proposed roadway limits
- Wells and foundation monitoring due to blasting.

There are two trees that are hazards at the current time and should be removed.

Bryan made a motion, 2nd by Mantegari to reduce the speed limit on Prescott Road to 25mph effective immediately. All were in favor.

Bryan made a motion, 2nd by Mantegari to adjourn the meeting at 9:01 am. All were in favor.

Respectfully submitted,

Karen Clement
